How to use a Sit-Stand Mat

1. **Placement:** Simply place on the floor near the edge of your desk directly in front of your screen.
2. **Stand in a neutral posture:** Stand up straight, with your feet roughly shoulder-width apart, and avoid locking out your knees. Forearms should be in a neutral posture, running parallel to your desk. Ensure the top of your screen is positioned in line with your eyes. Be careful not to slouch or lean.
3. **Movement:** Use the built-in step to gently stretch whilst standing.
4. **Sit, stand, move:** Don't forget to alternate between sitting, standing and taking a break regularly throughout the day.
