

CHAMPION

CHAMPION COVER

Modello professionale con le stesse caratteristiche dei modelli da competizione. Grazie alla superficie di impatto della pallina, estremamente dura ed uniforme, la precisione nei tiri di sponda è assicurata. L'alto tenore di carbonio delle aste, ne aumenta la resistenza del 20%. Le gambe dalle dimensioni importanti e rinforzate da traversa ne aumentano il peso rendendolo stabile e compatto. La versione **cover** presenta i vantaggi dei caciobalilla di questa categoria: non potendo accedere al campo gioco, si evita il furto delle palline e qualunque manomissione.

Professional table soccer with same characteristics as in official competitions tables. The cabinet is made of multi-layer poplar coated with two laminates. The sturdiness of the materials used, makes the cabinet extremely robust and steady to absorb the impact of the ball hit and to guarantee an exactitude in side shots. Telescopic rods are diam. 18 mm made of tempered steel with high carbon content to increase the resistance by 20%. Detachable two parts cabinet that can be opened using 2 pressure locks. Very robust legs structure reinforced with a crossbar for major stability. The cover version has the advantages of reducing the sound, preventing the ball from bouncing out of the table, keeping the playfield clean and avoid losing the balls.

Multistrato pioppo rivestito in laminato 25 mm
Poplar multilayer with 25 mm laminate coating

Vetro sabbiato 5 mm
5 mm sandblasted glass (dims. 111x70 cm)
