**EU 2023/988 Regulation on general product safety**

Steinbeis Papier GmbH produces at its mill in D-25348 Glueckstadt graphic recycled papers out of 100% recovered paper as fiber raw material.

Steinbeis No. 1, 80g/m<sup>2</sup>Steinbeis No. 2, 80g/m<sup>2</sup>Steinbeis No. 3, 80g/m<sup>2</sup>Steinbeis No. 4, 80g/m<sup>2</sup>

These products are manufactured by using latest state of technology and in accordance with current technical regulations in a modern, integrated paper factory.

Based on the risk analysis carried out and the examination of technical standards, these products do not pose any danger to the consumer if used foreseeably and as intended.

Since there are no applicable EU regulations for the products that are subject of this declaration (<https://webgate.ec.europa.eu/single-market-compliance-space/#/notified-bodies>), the assessment is based on applicable harmonized quality and testing standards (EU 2023/988 Article 7, 1b) as well as voluntary, independently controlled certification systems (EU 2023/988 Article 8, 1d) such as the EU Ecolabel (Regulation (EC) No. 66/2010) and the german eco-label Blue Angel (DE-UZ 14a and DE-UZ 72) and analyzes of food safety (XXXVI recommendation of the BfR).

We also provide our customers with important product information such as technical data sheets, environmental data sheets as well as processing and storage recommendations.

Yours sincerely

Marc Gebauer
