

Braclabs[®] Stand Mobile

mobile stand system

Item no.: 1983

The Braclabs Stand Mobile is a mobile stand system for screens from 32 up to 55" | 81 - 140 cm, it is particularly characterized by its extremely simple and quick assembly.

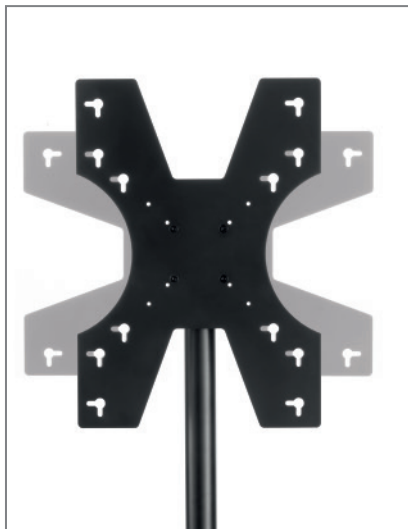

The VESA universal mount includes the VESA standards up to VESA 600 x 400 mm max. and can be used in landscape or portrait format. The screen can be easily attached or detached by using keyholes.

The high-quality stand system is variable in height between 1275 mm min. to 1715 mm max. (center of screen).

The pin screw on the back enables the desired height to be secured. Cables are routed inside the column and remain almost completely invisible. A cable pulling aid is included.

A set of high-quality castors with lock-type brake ensures the necessary mobility and security.

Optionally a Braclabs front shelf (Item no.: 1984) can be installed on the stand system.

Landscape or portrait format possible

handle on the back of the column
