Utilizing dynamic GaN technology, the Targus® PowerElite™ 65W GaN Wall Charger packs ultimate charging power in a small package and charges faster, runs cooler, and lasts longer than traditional chargers. Equipped with 1 USB-C® port (with a single port use up to 65W) and 1 USB-A port with quick-charge capabilities supporting 18W, this charger can connect to two devices so you can simultaneously power up your laptop and phone. And because GaN charging is more efficient in power transfer, it uses less energy, so you can count on cooler and safer charging. Like all Targus products, this charger passes strict quality and safety standards and meets UL requirements.

Whether you're working at the office, the lobby, or in the airport lounge, it's essential to be charged up for the journey. This charger is travel-friendly and comes with interchangeable plugs compatible with power outlets in over 140 countries in the Americas, Asia, Europe, and Australia. From its lightweight structure and slim, compact design, the charger won't take up prime real estate in your space. Its US plug has foldable prongs making it easy to slip into your briefcase or backpack on-the-go.
