

Post-it® Cubes

For serious messenger

A whole stack of notes for when one pack never seems enough. Available in a range of colourful shades and shapes, from mini to mega.

Post-it® Cubes are made of high grade of paper, coated on the back side with 3M's unique repositionable adhesive. They are designed to stick wherever desired and easily lift cleanly off of most surfaces.

TECHNICAL CHARACTERISTICS

Consumer & Office Markets
 CTC – Customer Technical Center
 Avenue Boulé - BP 28 - 95250 Beauchamp - France

ADHESIVE	
Adhesive material	Acrylic repositionable
PAPER	
Paper type	Uncoated paper 100 % virgin pulp
Paper bleaching	ECF type
Paper origin	Europe
Paper certification	Preferably certified pulp sources (FSC, PEFC...)
Paper weight	70 – 72 gsm
BACKSHEET	
Paper type	Printed white uncoated paper 100 % virgin pulp
Paper bleaching	ECF type
Paper origin	Europe
Paper certification	Preferably certified pulp sources (FSC, PEFC...)
Paper weight	70 gsm
PACKAGING	
	Cube
Primary pack	OPP Film
Shipper	Corrugated board with minimum of 70% recycled fibers
Pallet	Wood pallet + Stretch PEBD film

ECF stands for **E**lemental **C**hlorine **F**ree meaning that no Cl₂ is used for bleaching the pulp (Cl₂ is a very strong oxidizing agent which has negative effects on the environment).

END USER BENEFITS

FEATURE (HAS)	AVANTAGE (WHICH MEANS)	BENEFIT (SO THAT)
Cubes have higher sheet count than normal pads	Cubes stand higher than normal paper pads	Increases productivity as the cubes are easier to find and last longer.
Assortment of popular attention-getting colours	Pleasing colours in the office	Personal profit / pleasure
	Specific points / messages can be highlighted	Saves time
Numerous size options	Correct size to meet user's needs.	Increases productivity
	Saves paper - use only the size/amount of paper needed to effectively communicate your message.	Improves quality of the environment
Repositionable adhesive	Convenient. Easy to make copies of document without removing staples. Allows you to make comments without damaging the original.	Saves time
	Notes do not hide/cover-up important information	Increases productivity
	Eliminates need for staples and paper clips	Improves quality of the environment
	Removable, reusable	Easy to use
	Can be applied to a variety of surfaces without damaging them	Reduces worry

ENVIRONMENTAL CHARACTERISTICS

FEATURE (HAS)	AVANTAGE (WHICH MEANS)	BENEFIT (SO THAT)
Papers used for Post-it® Notes preferably made from certified pulp sources (FSC, PEFC...)	This selection helps contribute to the protection of the environment, namely does not impact the old growth forest by using managed planted woods	Post-it® Notes fulfil customers' environmental expectations by our long history of continuous environmental improvements to minimize the impact of our manufacturing processes and products on the global environment
Post-It® Notes manufactured in an ISO14001 certified factory with on-going pollution prevention actions and programs	Volatile Organic Compounds continuously reduced as documented in the annual 3M France Environmental report	Plant emissions reduced by 98% over 1990-2005 period
	In-process and ultimate paper wastes collected and managed through dedicated waste stream recycling	Manufacturing paper waste shipped to a waste paper collecting company for further recycling
	3M has a strong environmental management system in place according to ISO 14001 standards and regularly checked by notified body since 1996	Pollution risk occurrences minimized at all stages of the manufacturing process as required by ISO14001 principles and practises Factory site practises recognized with 2004 "Enterprise & Environment" national award
Post-It® Notes can be recycled	Notes can be treated like any other office waste paper as documented by 3M Company position letter dated Nov 18,2002	Notes can be disposed in paper office waste bins therefore go through the normal paper recycling waste stream
Post-It® Notes are primarily manufactured locally for European market	Reduction of the shipping/transportation distances between supplier and customer therefore reduces fuel consumption and emissions for delivering goods.	Reduction of the fuel consumption associated with transportation
